*astTECS®

India’s Most Trusted & Leading

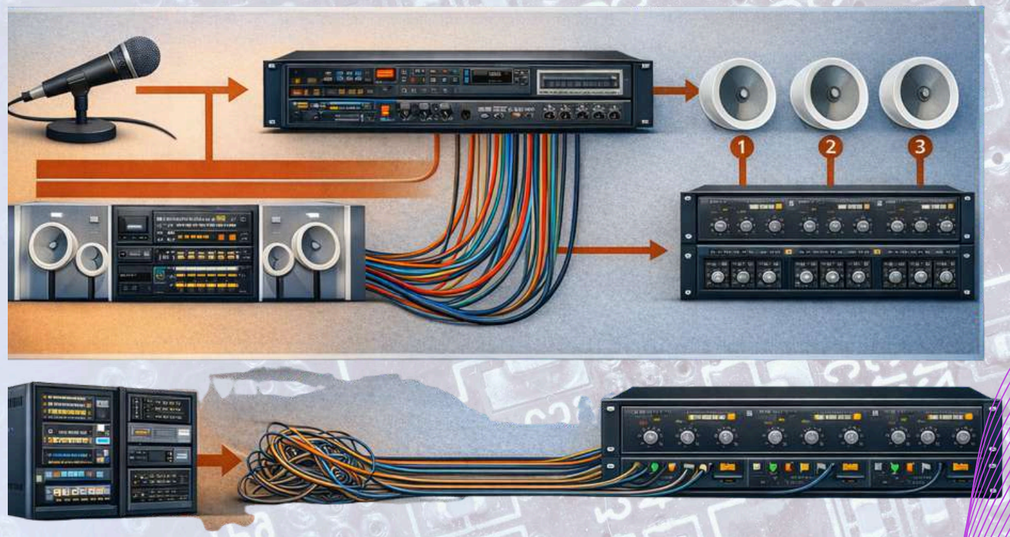
IP PA SYSTEM

Transforming Communication with Intelligent, Scalable & Future-Ready Solutions

www.asttecs.com

The Conventional PA System

- **Requires extensive copper cabling**
- **Minimal or No Zoning Capability**
- **Limited Scalability**
- **If amplifier fails → entire zone goes down**
- **No real-time device health monitoring**
- **Lack of Integration with other devices - Fire alarm, IP camera etc.**
- **Manual Operation -**
  No remote announcements via network



*astTECS®

IP PA System

- Works on SIP protocol
- Easily scalable
- PoE enabled
- Integrates with SIP PBX, IP camera, Fire Alarm etc.
- Speakers are API enabled
- Real time monitoring via web based GUI
- Easy remote access

WHAT SET US APART

Market Leader in IP PA Systems

Futuristic Product - AI Ready

ISO Certified Company

24/7 Global Support

TEC approved Manufacturer - Tenders

KEY FEATURES

Unlimited Zone Creation:

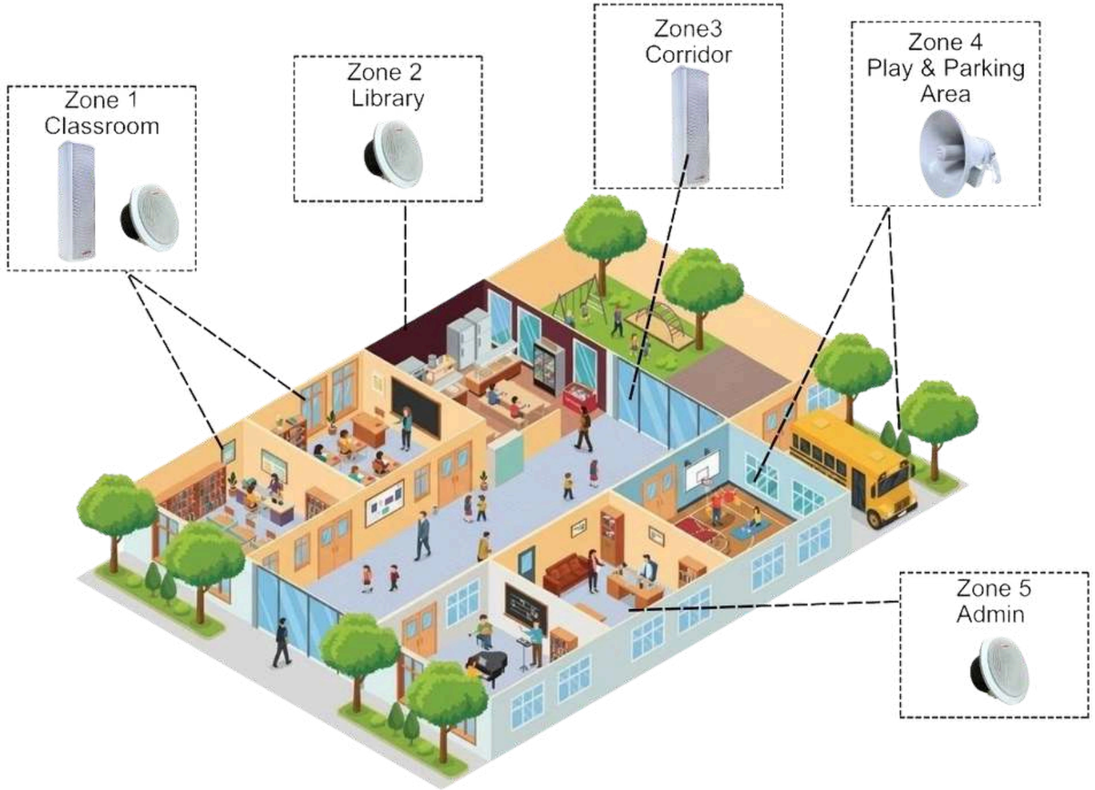
Create unlimited zones based on buildings, departments, library or floors. Announce each zone independently or broadcast to all.

Live & Scheduled Announcements:

Make live announcements anytime from anywhere with IP Phones or mobile devices

Emergency Announcement

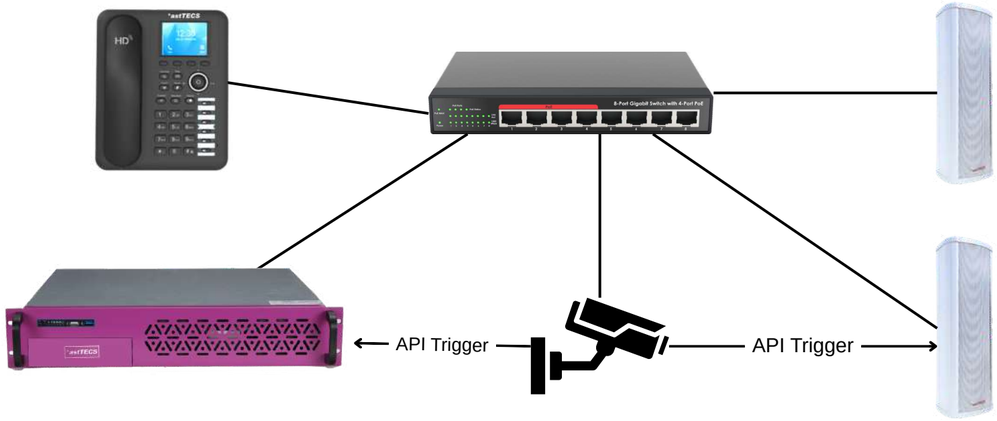
Trigger pre-defined emergency alerts (like Fire Alarm, natural disaster etc.) with one-touch access to ensure swift action during crisis.



KEY FEATURES

Integrated with Fire Alarms & IP Cameras

Syncs with your Schools' IP surveillance and fire safety systems for automated alerts and centralized incident response.

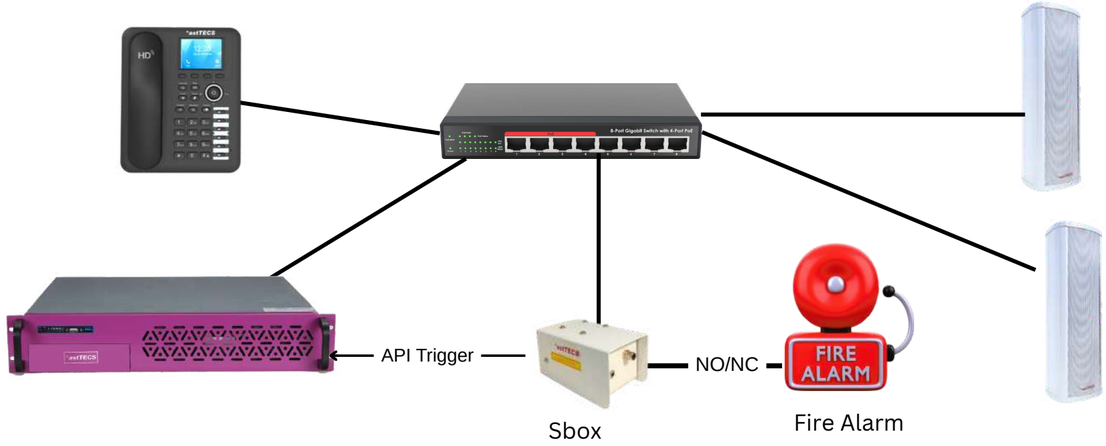


Open API Integration

Open APIs to integrate with any third part system for instant communication

Pin-based security

Ensure only authorized access with PIN-protected controls, safeguarding announcements, system configurations & sensitive communication channels.



KEY FEATURES

Call Recording

In-built recording of all announcements for compliance, monitoring, training, and security purposes.

Remote Access

Allows users to make announcements from any location by connecting a GSM or PRI line to the existing control system.

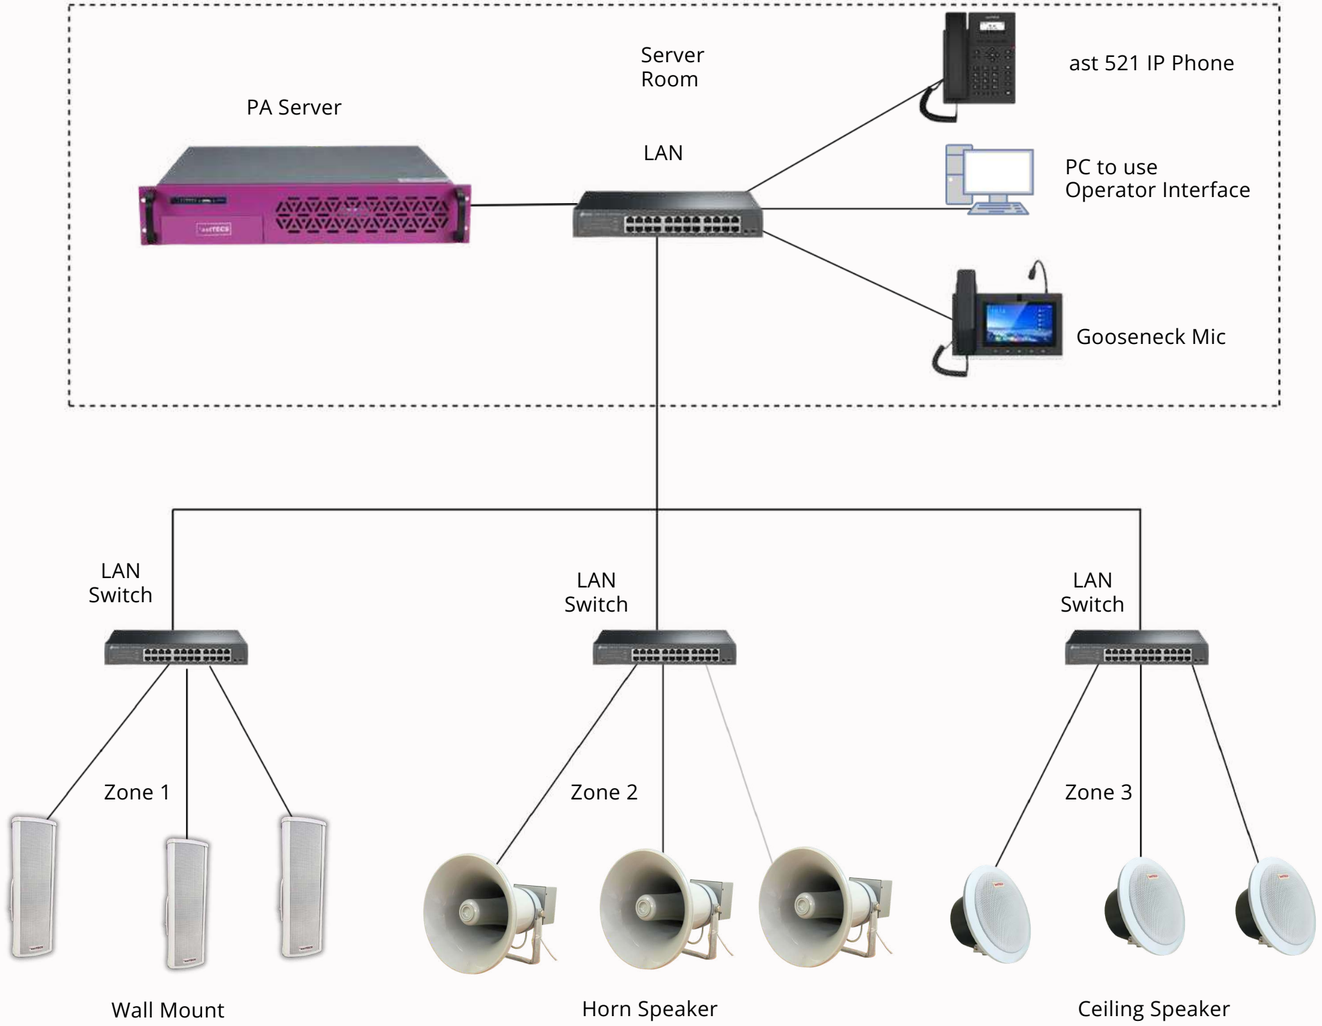
Distributed announcement points

Flexible centralized or distributed system with zone-wise and global announcement control.

All-in-One Communication Platform

Combines IP PBX and Public Address into one platform—reduce hardware, streamline operations, and improve overall efficiency.

CONNECTIVITY



1000

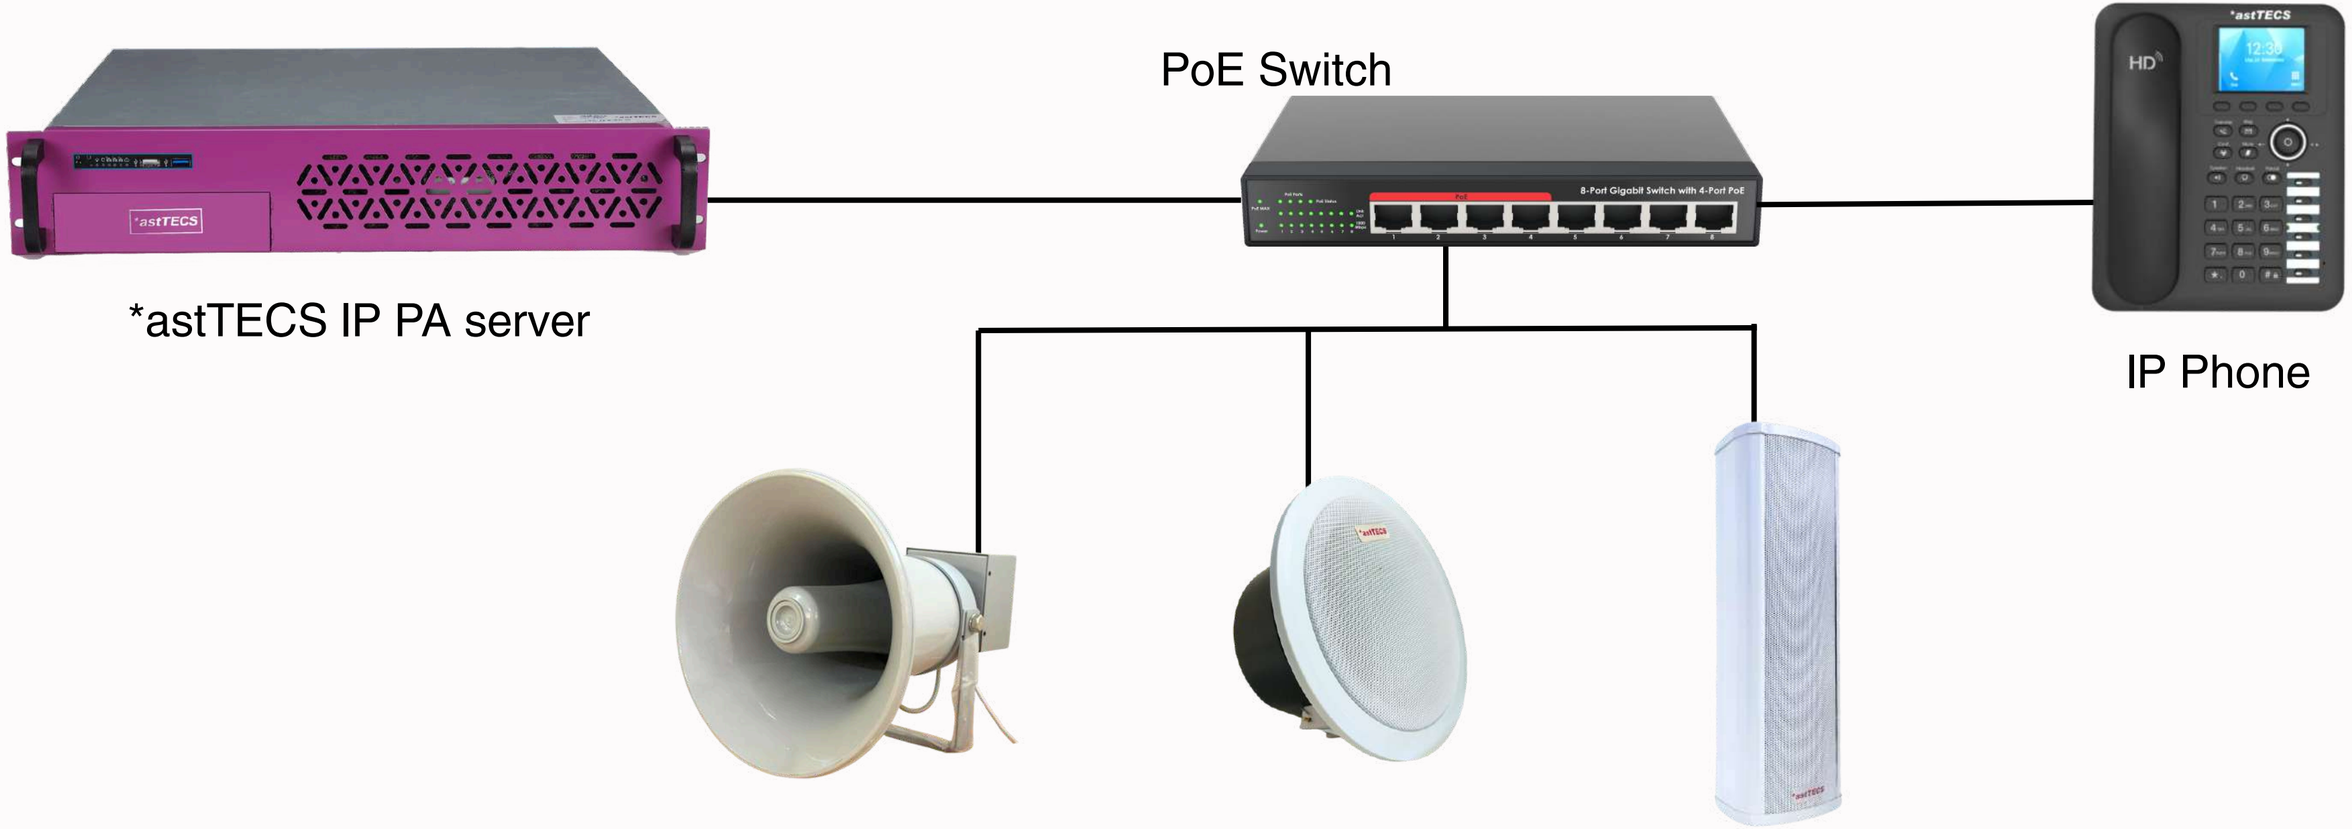
Wall mountable speaker

1001

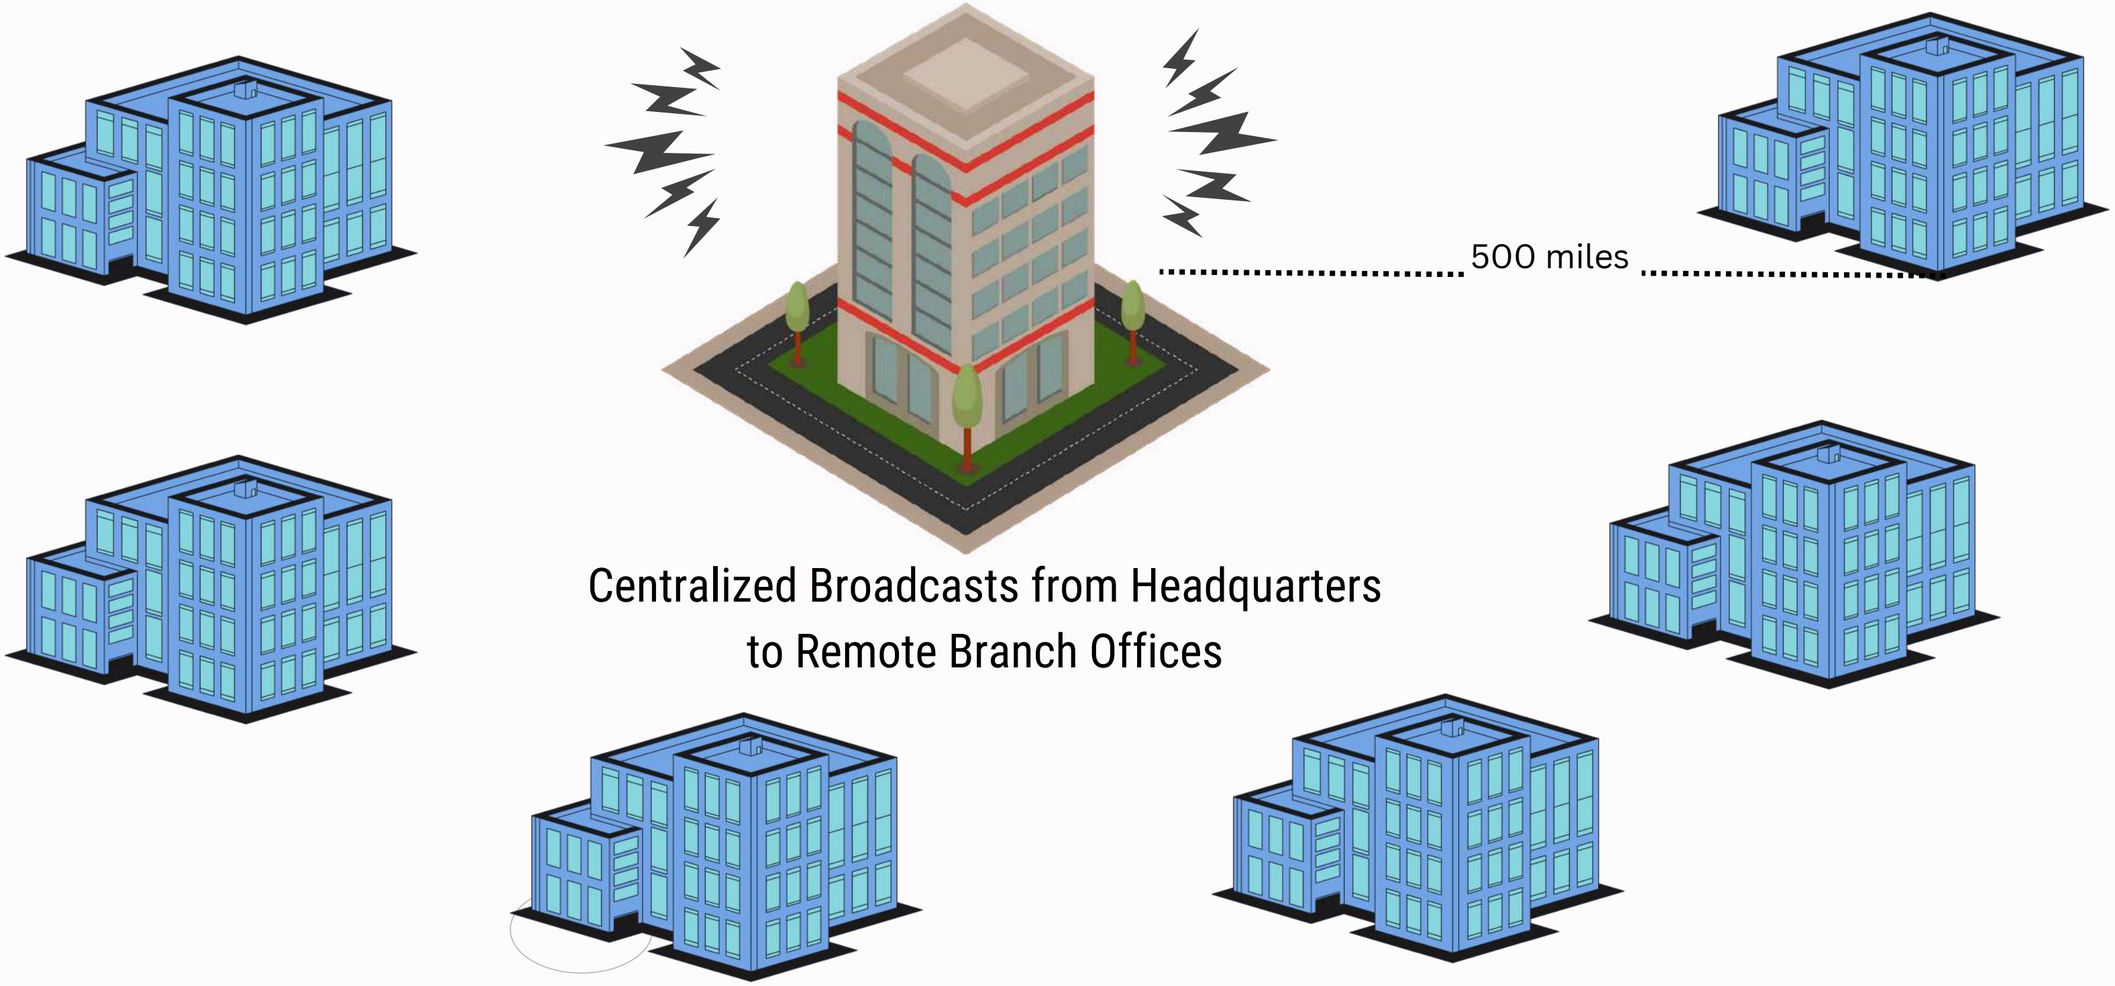
Ceiling mountable speaker

Horn speaker

SINGLE LOCATION NETWORK



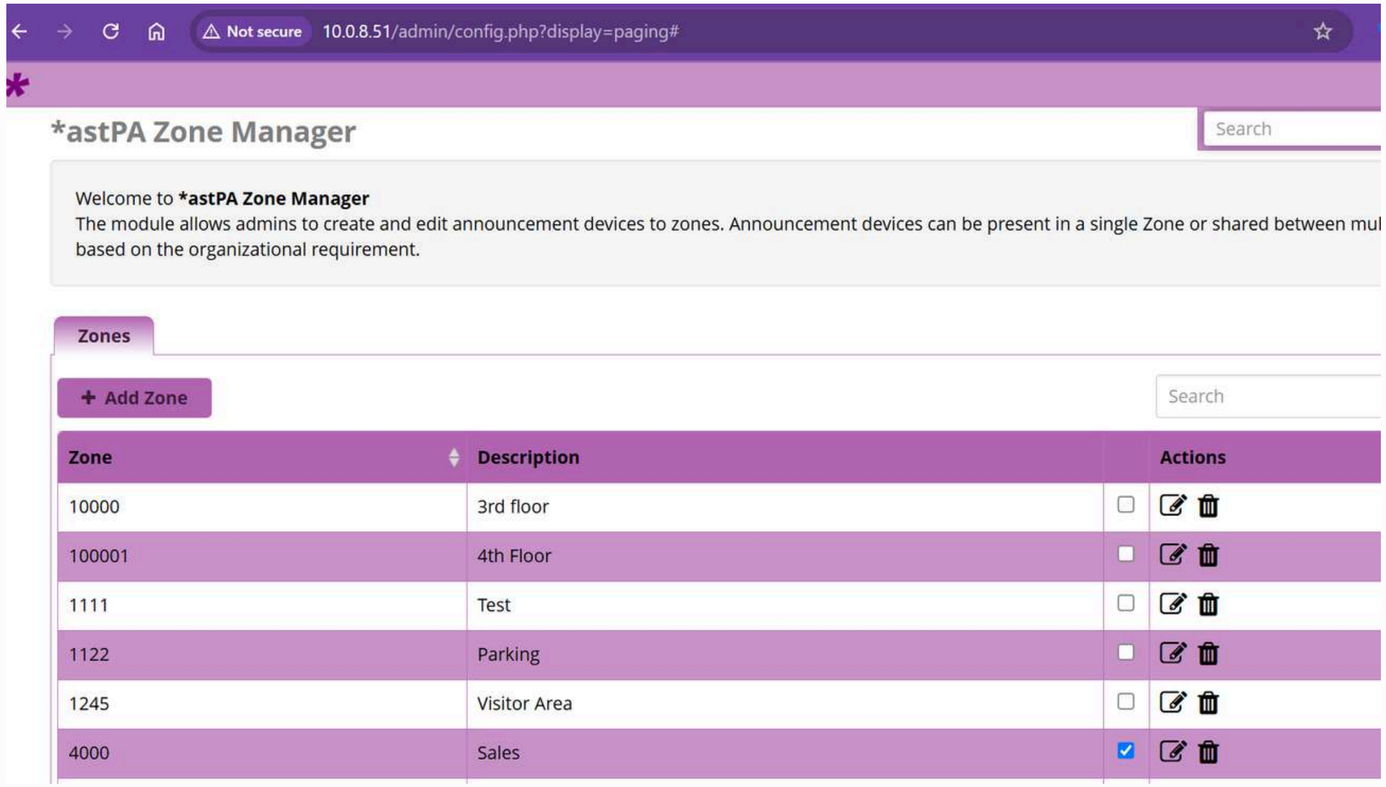
MULTI-PREMISE NETWORK



Centralized Broadcasts from Headquarters
to Remote Branch Offices

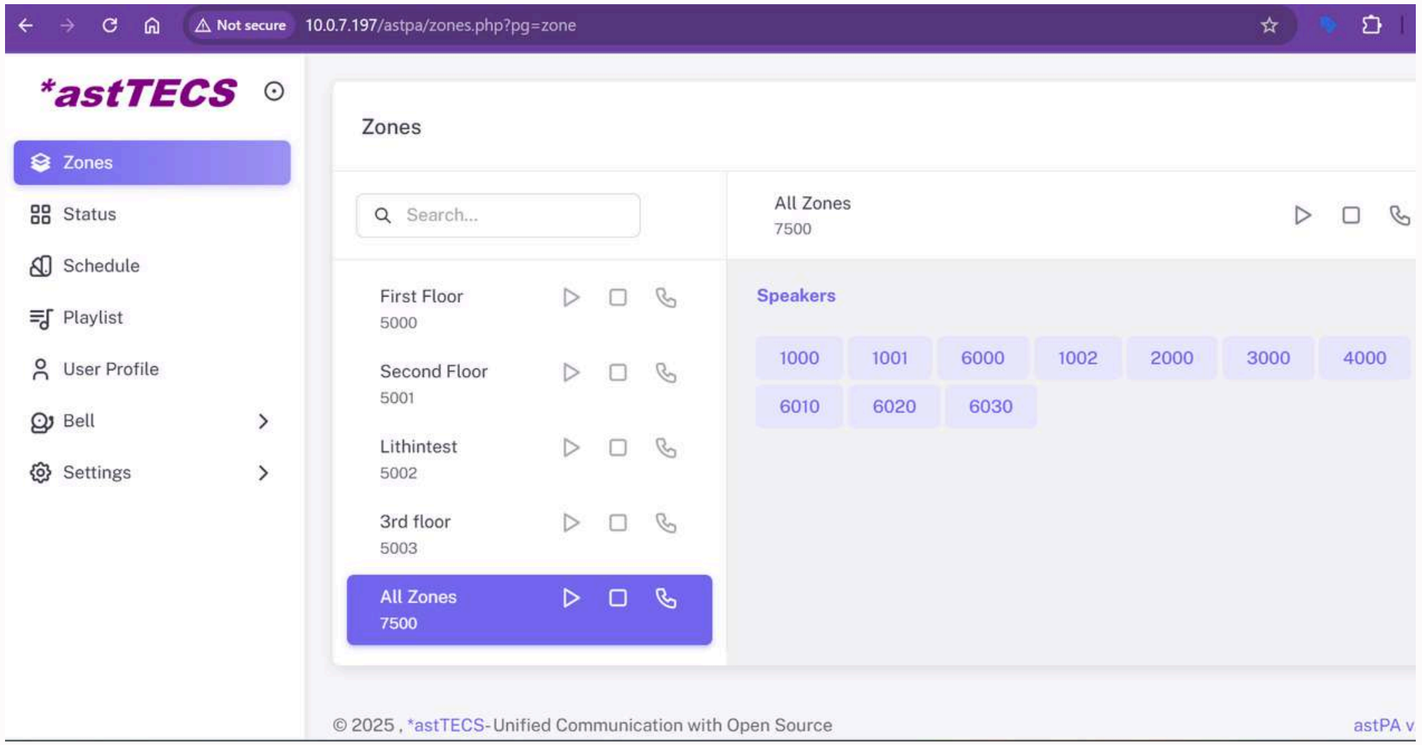
WEB-BASED ADMIN INTERFACE

- Create announcement units
- Create/delete Zones
- Edit Zones to add new announcement units



WEB-BASED MANAGER INTERFACE

- Live status
- Zone wise announcement
- Schedule announcements
- Playlist creation



ANNOUNCEMENT DEVICES

IP PHONE WITH GOOSENECK

PUSH TO TALK

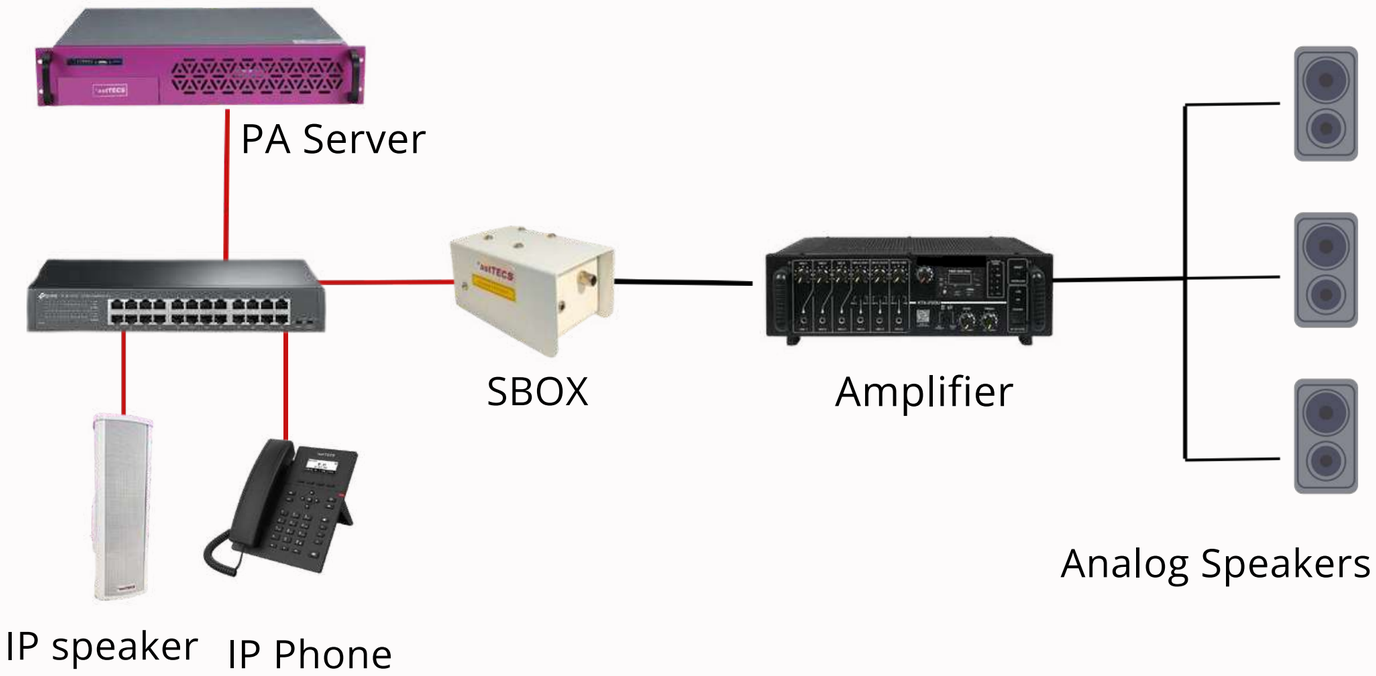
Mobile Phone

IP PHONE

IP PHONE WITH TOUCH INTERFACE

SBOX

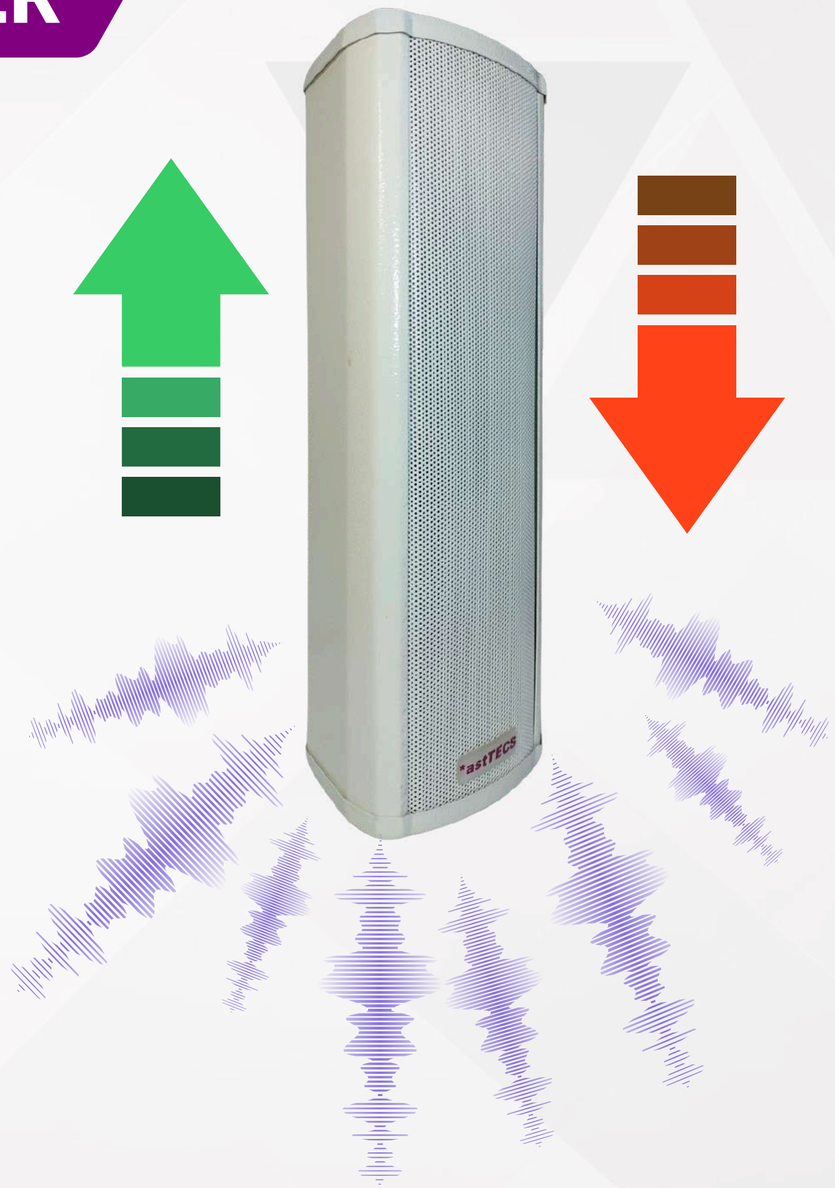
- Convert the existing analog speaker system to an IP-based solution.
- Allows Schedule announcement
- Easy Integration with IP speakers
- Enable announcements through IP phones



*astTECS®

AMBIENT NOISE DETECTION SPEAKER

Different locations have different and varying noise levels. Our IP speakers has optional ambient feature that automatically adjust volume in real time — increasing or decreasing output based on surrounding noise — ensuring every announcement is heard clearly.



Ideal for:

🚌 Bus Stands

🚆 Railway Stations

🏛️ Government Offices

🎉 Public Places

WIDE RANGE OF IP SPEAKERS

Wall Mount Speakers

- 10W (PoE)
- 15W (PoE)
- 20W (PoE)

Ceiling SPeaker

- 10W (PoE)

Horn SPeaker

- 15W (PoE)
- 20W (PoE)
- 30W (PoE)
- 50W

IP 67 Speaker

NEXT-GEN PA SPEAKER FOR AGENTIC AI

Next-Gen PA Speakers with MCP Server allow AI agents to deliver real-time, context-aware voice announcements into physical spaces.

- Seamless integration with AI workflows, CRMs, and IoT systems via MCP
- Trigger intelligent voice announcements based on AI events or data insights
- Deploy at scale with enterprise-grade SIP, PoE, and advanced security

INTEROPERABILITY

- IP PBX - Cisco, Avaya
- Appliance - Grandstream, 3 CX, Fanvil
- Integration with FireAlarms
- Integration with CRM, ERP
- Integration with agentic AI Systems - n8n, Langgraph

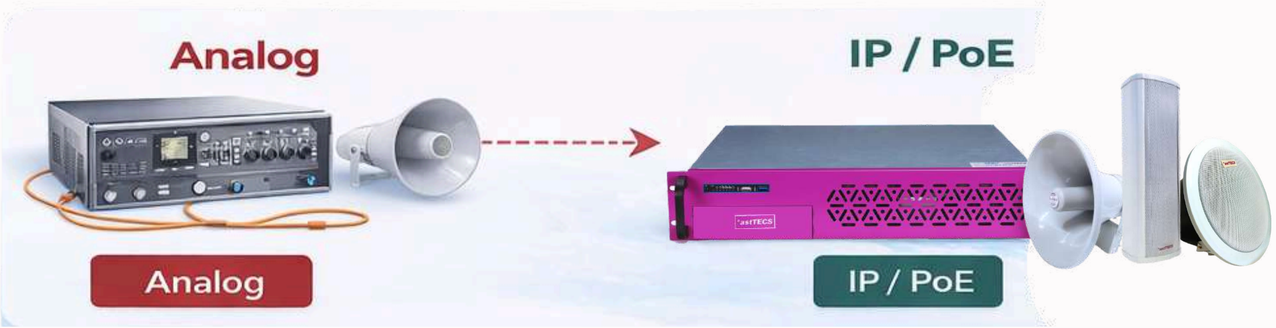
Why IP PA System is taking over ?



- **Built-in PoE** – Single cable for power & data
- **Announce from any place** from any device
- **Zone wise announcements** – allows the user to make or schedule announcements to a specific zone or speaker.
- **Customizable Announcements** – As per department, building, or timing
- **Scheduled Announcements** – Automated daily, weekly, or emergency alerts
- **Easy Scalability** – Add speakers anytime without rewiring
- **Remote Access** – Control from anywhere via network
- **Seamless Integrations** – Works with IP cameras, fire alarms & access control
- **Combined PBX + PA Solution** – One unified communication platform
- **High Reliability** – Failure of one speaker never affects others
